Developed By: James Collier   Ben Anderl   Charlie Clausen   Alex Hawks
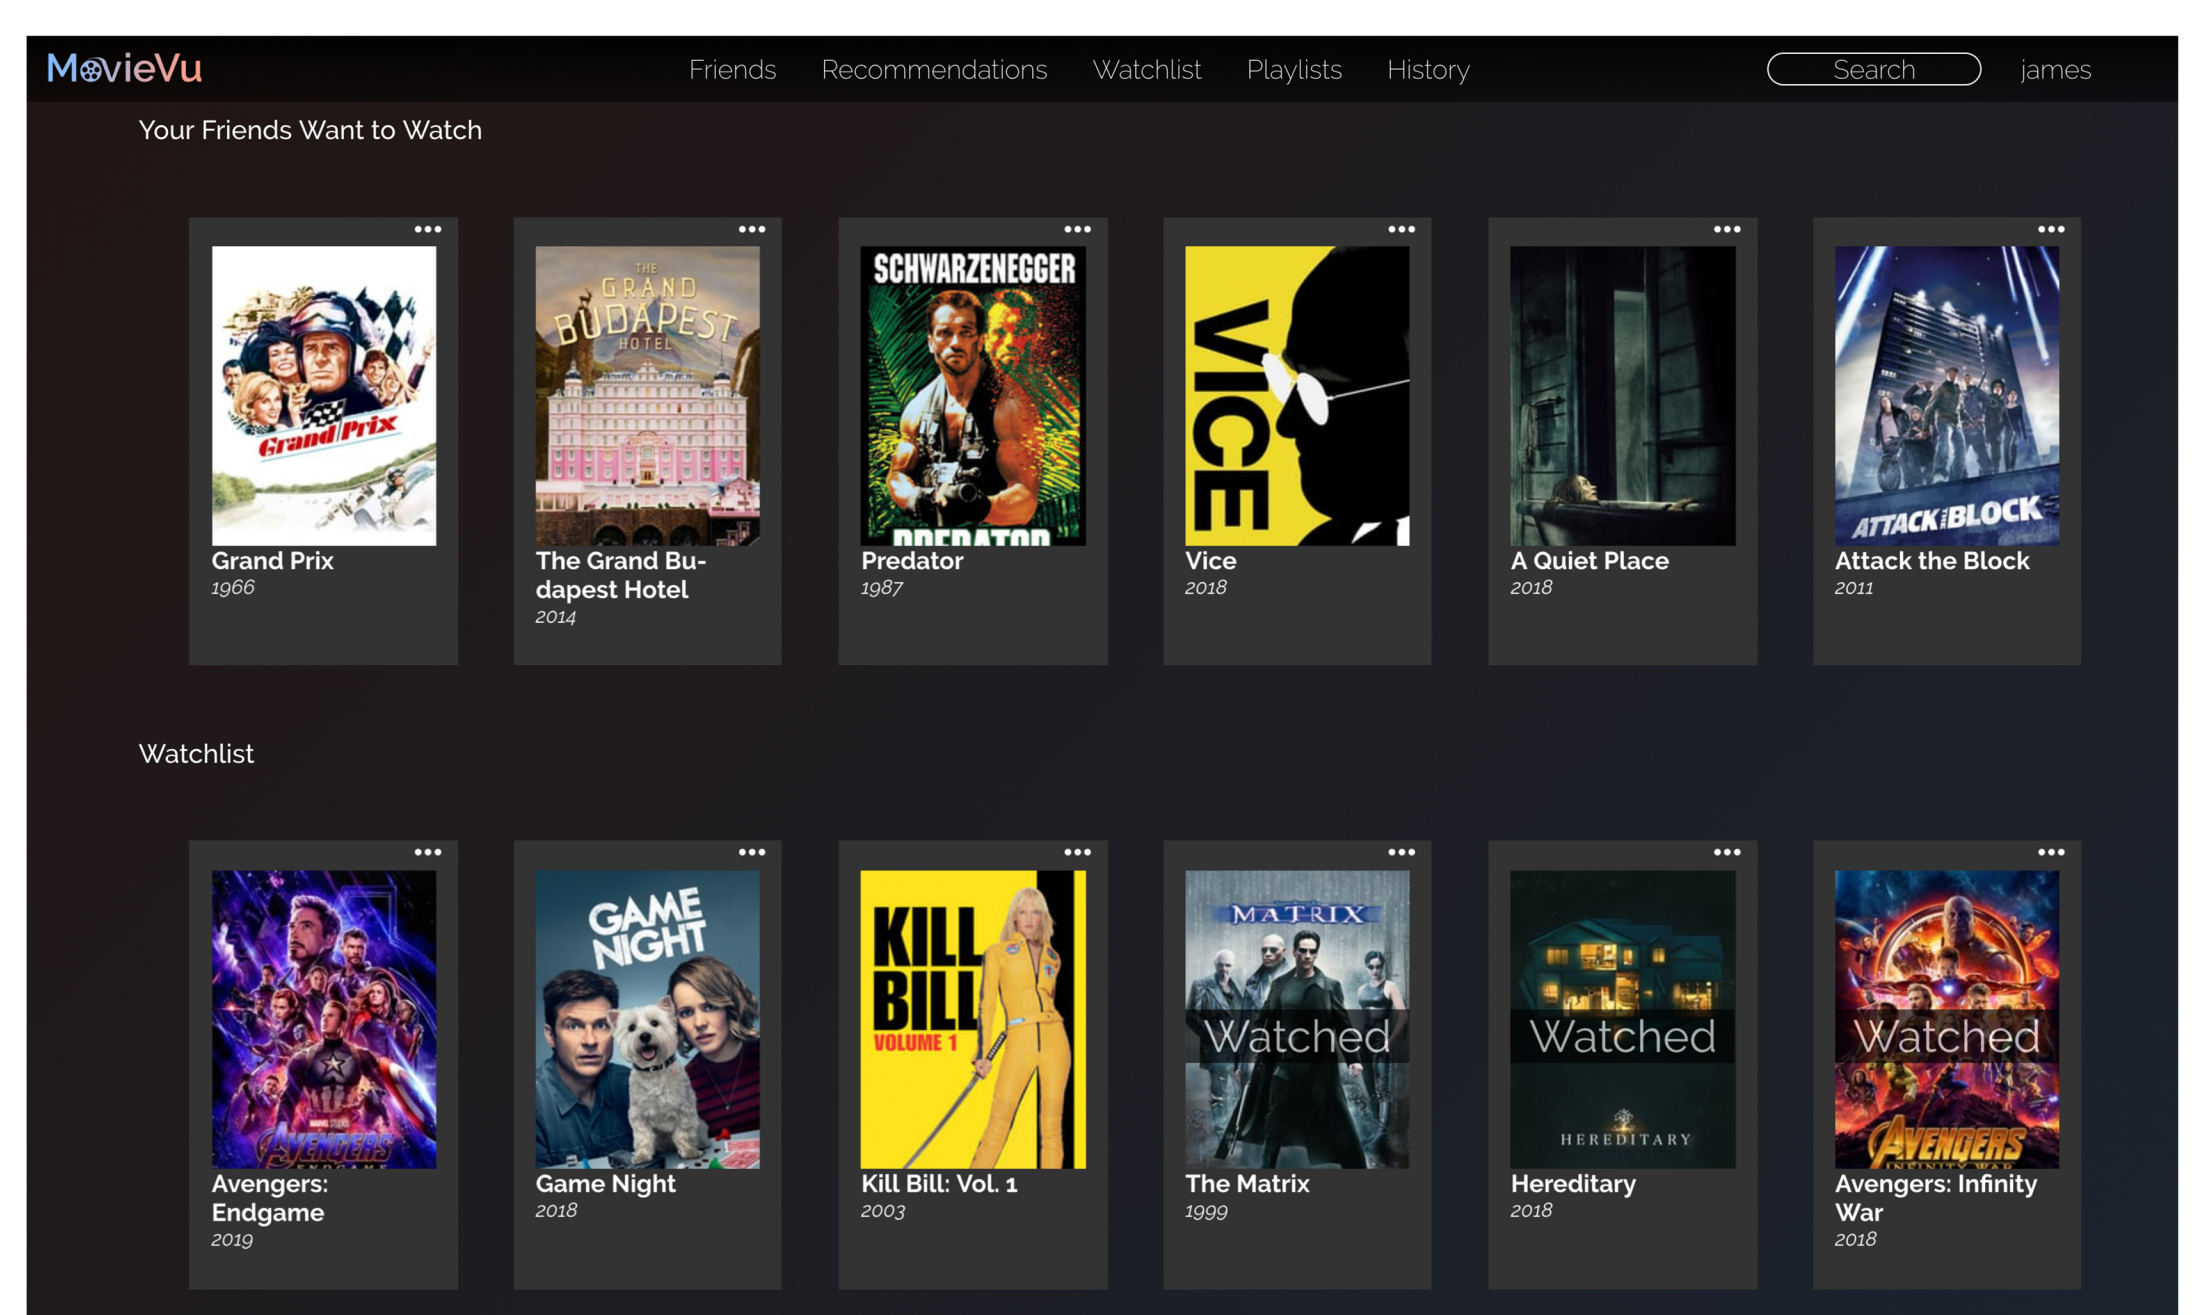

Abstract

MovieVu is a movie-centric web platform that simplifies how you discover, share, and enjoy movies by providing lean curation tools and the capability to connect with your friends. MovieVu fills a unique role in the market by streamlining movie interactions and prioritizing the movie recommendations from your friends.
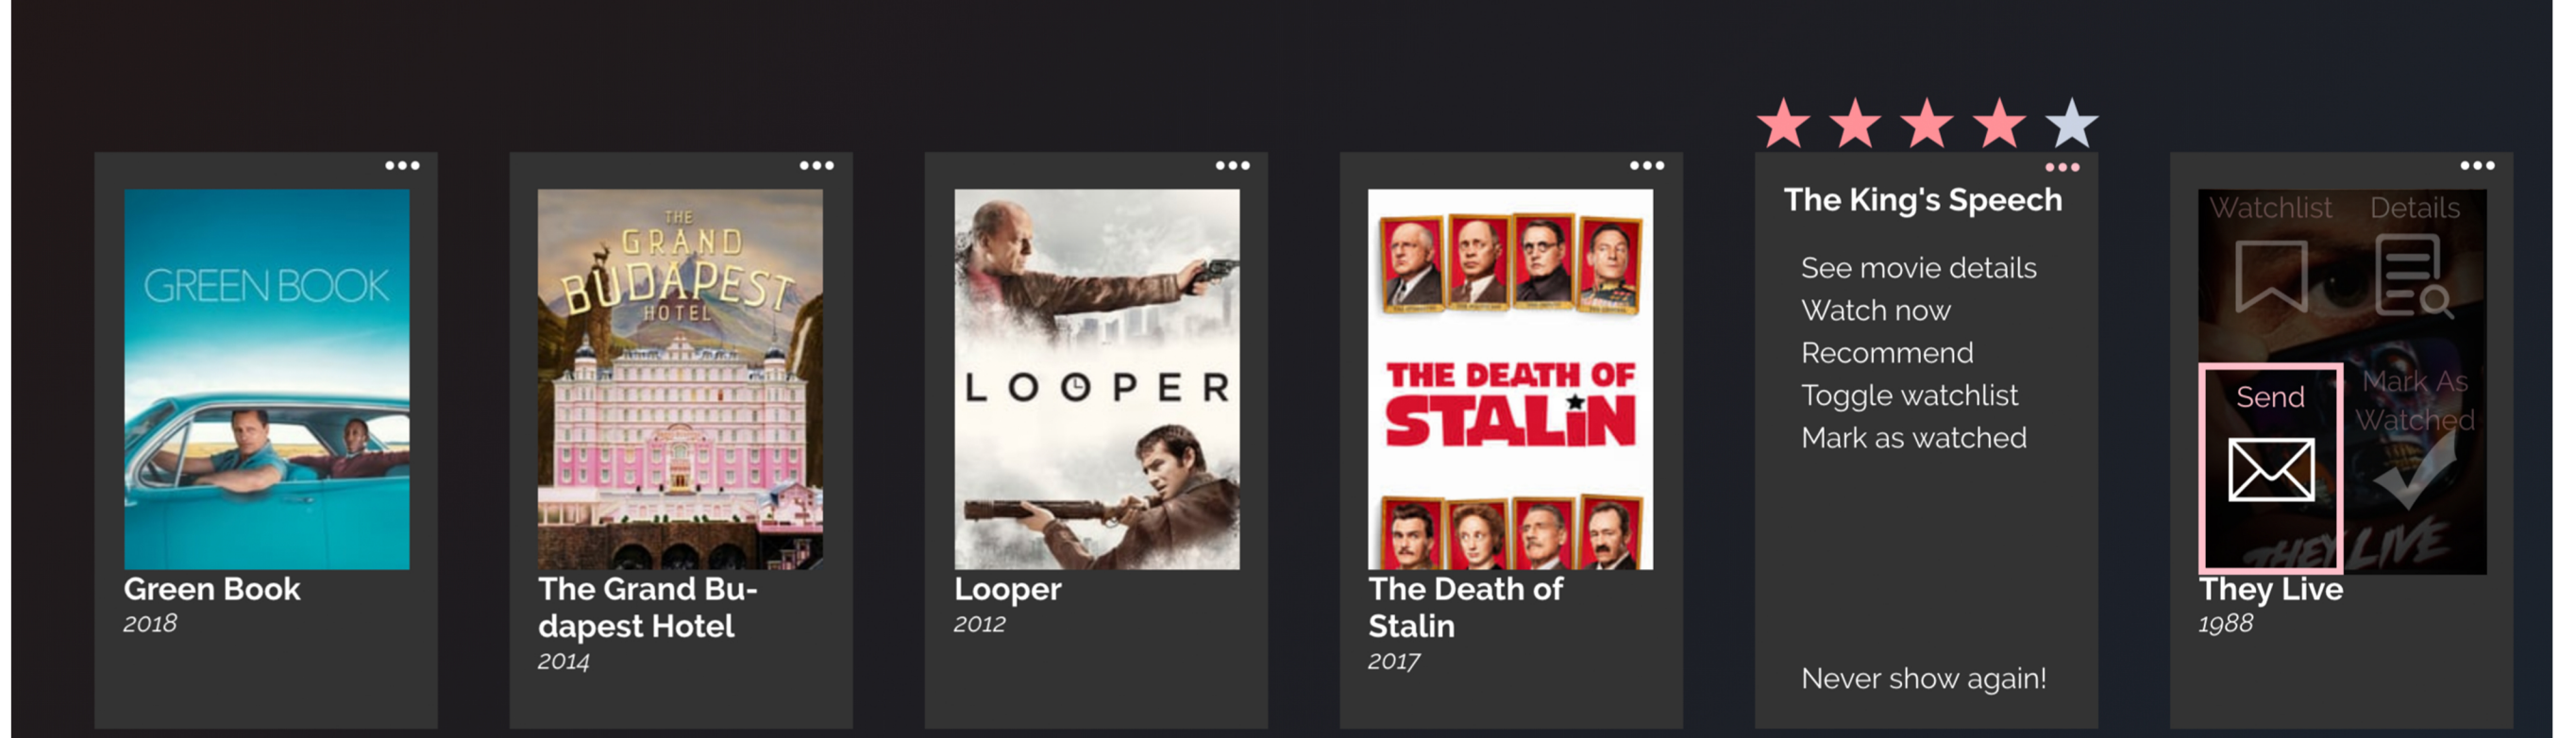

Architecture

Simplify

- Easily find where to stream
- Desktop and mobile
- Centralize all your movie watching needs
- Lean user interface

Curate

- Organize lists
- Scan in your physical movies
- Import your Netflix history

Connect

- Add your friends
- Send them movie recommendations
- Engage in conversations
- See what your friends want to watch
- Set up a watch party to enjoy together
